with a little help from my friends

Our mission is to help returning soldiers with disabilities regain their independence and confidence through the assistance of highly trained service dogs.

We envision improved quality of life for veterans through a supportive and enduring relationship with a service dog.

I am writing to say thank you to BallenIsles Charities Foundation for the generous contribution. This contribution will help support our Train Your Own Dog (TYOD) program for veterans coping with the challenge of life with post-traumatic stress (PTS).

We cannot thank you enough for this kindness over the years, and especially during these unsettling times.

Kind regards,
Heidi Spirazza
Executive Director
